

WABCOWÜRTH presents the W.EASY diagnostic trolley

Künzelsau, 22nd March 2011 – WABCOWÜRTH offers the W.EASY diagnostic trolley in addition to the W.EASY diagnostic tool. This trolley is specially designed for a stable and ergonomic workplace for commercial vehicle workshops. The W.EASY diagnostic trolley is perfect for the daily hard work in workshops. All contents of the W.EASY diagnostic package and a laptop can be stored away safely in the four drawers and are easily accessible.

The W.EASY diagnostic trolley has a solid desktop with wire outlet and a footstool in order to work comfortably. Four easy-running wheels with double stop and solid push handles guarantee easy movement over uneven floors. The W.EASY diagnostic trolley has an integrated impact protection located on the bottom of the trolley in order to prevent damage and the trolley's central lock secures its contents from theft. A large storage compartment offers room, e.g. for a printer or other tools and gadgets. The power supply for the W.EASY trolley is ensured by its multiple contact strips with switches and a 5 m extension cable. Additionally, there are more optional accessories, e.g. cable hooks, keyboard shelf or a retaining plate for the W.EASY diagnostic case.

About WABCOWÜRTH

WABCOWÜRTH offers an innovative multi-brand diagnostic technology, integrated software packages and a qualified technical after-sales service for the maintenance of electronic components and systems in commercial vehicles throughout Europe. WABCOWÜRTH Workshop Services is a joint venture of the Würth Group and WABCO Holdings Inc. (NYSE:WBC). The independent company is based in Künzelsau, Germany, and combines the Würth competence in after-sales service and multi-brand diagnostics and the technological know-how of WABCO. Further information is available at www.wabcowuerth.com.
