

**W.EASY ADAS Calibration Kit**  
The mobile product solution for the calibration of truck, bus and van assistance systems

# MORE CUSTOMERS AND HIGHER SALES!

With the increasingly widespread use of technical assistance systems such as rain sensors or lane departure warnings, replacing windcreens is becoming more and more complex. It requires the use of the corresponding optical adjustment devices and reference panels together with a diagnostic device. To solve this problem, WABCOWÜRTH can offer a mobile product solution specifically designed for the calibration of the assistance systems on truck, bus and van.

## THE PERFECT SOLUTION FOR WINDSCREEN SERVICES, WORKSHOPS AND MOBILE SERVICE PROVIDERS

- Calibration coverage for all major commercial vehicle manufacturer with the WABCOWÜRTH ADAS license
- The extremely easy to transport mobile adjusting device includes corresponding reference panels. This allows all work to be carried out on-the-spot within the customers premises
- The integrated double tube extension shortens the set-up time of the system and also offers optimal adjustment for calibration on the transporter
- Calibration is performed in accordance with OE manufacturer specifications
- Diagnostics report can be printed out for presentation to the insurance company
- Comprehensive instruction on how to use the mobile calibration solution

### YOUR ADVANTAGES AT A GLANCE

- Security
- Wide brand coverage
- Increased competency
- Stronger customer loyalty
- Mobility and flexibility
- Generates additional turnover
- Time saving
- Efficient working
