

## Diagnostic solution for everyone who moves big things 24/7

No more failures: W.EASY revolutionizes multi-brand diagnostics the modular way

Künzelsau, September 2024: **Extremely large, damn heavy and highly versatile are not only commercial vehicles themselves, but also the tasks they have to perform. Every breakdown costs time, money and, in the worst case, even human lives. For around 15 years, WABCOWÜRTH Workshop Services GmbH has been equipping workshops, fleet managers and a wide range of facilities with vehicle diagnostics that can cope with even the biggest challenges. With a diagnostic tool that supports more than 112 manufacturers, 1.018 models and 21.244 systems, your fleet is always ready for action.**

### More brands - more possibilities

With the cross-brand diagnostic solution **for trucks, trailers, buses and vans** and **the modular W.EASY concept** including hardware and software components, customers receive a customized diagnostic solution - from entry-level packages to complete solutions. The customer chooses from a portfolio consisting of a workshop laptop with pre-installed W.EASY software, individual software modules through to comprehensive technical data and work values. Thanks to technical enhancements, WOW! car diagnostics is fully supported.

### A/C service? No problem!

The **COOLIUS** series of A/C service units makes servicing air conditioning and thermal management systems child's play. Whether R134a or the latest refrigerant - WABCOWÜRTH has the right solution.

### W.EASY ADAS CALIBRATION: mobile calibration and maximum safety for commercial vehicles

WABCOWÜRTH is revolutionizing the manufacturer-compliant calibration of advanced driver assistance systems. **W.EASY ADAS CALIBRATION** makes calibration simple, fast and precise, increases the efficiency of workshops and ensures greater safety on the roads.

### OEM power included!

W.EASY is the only multi-brand diagnostic system that integrates the **original diagnostics from WABCO and Haldex** without the hassle of changing devices. In this way, WABCOWÜRTH not only guarantees the correct execution of sensitive calibration processes today, but also in the future - from the drive to the brakes to the lighting.

## **Want to know if there is more, in an even better way**

With their concentrated development spirit and experience, the diagnostic specialists are setting new safety standards for commercial vehicles. WABCOWÜRTH's **in-house development department** creates tailor-made solutions for special sectors such as buses and special vehicles - perfectly balanced between standardization and individuality. The W.EASY diagnostic data is only sent to the customer after strict testing.

## **If you have big jobs to do, you need to be able to rely on your equipment - the features of W.EASY multi-brand diagnostics:**

- Secure Gateway Portal: simple and cross-brand access to encrypted vehicles via single sign-on
- Flight Recorder: mobile data recording at the touch of a button for advanced fault diagnosis
- Smart Guide: online comparison in real time supplements read-out error codes with additional information such as possible error causes and test instructions
- CAN FD & DoIP: ready for future communication protocols. For a fast and secure data flow without adapters
- PassThru: enables the use of OEM software without additional hardware (e.g. Volkswagen and Mercedes)
- Future-proof: ready for access to modern online and remote diagnostics solutions
- Alternative drive systems: support for the first electric and hybrid commercial vehicles with growing vehicle coverage

## **Support in a class of its own**

The experts at WABCOWÜRTH are there for their customers - from advice to service. No external customer service, but everything from a single source. There is also customized training, e-learning from partners ZF and Haldex and a multilingual product and vehicle hotline. Smart financing solutions guarantee customers the use of the latest diagnostic systems.

## **Ready for the future?**

Coupled with the values of trust and personal support, WABCOWÜRTH provides its customers with smart tools. For a future full of opportunities. Together.
